

Sports Grant - allocation, use and impact

Sport Funding Report 2018 - 2019

The Government initially provided additional funding for academic years 2013/2014, 2014/2015 and 2015/16 to provide new, substantial primary school sport funding in order to improve the provision of physical education and sport in primary schools. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to schools to be spent on improving the quality of sport and PE for all their children. All state-maintained schools, academies, middle schools, special schools and pupil referral units which have primary aged pupils (as reported in the 2013 school census) will receive the funding. They have since agreed to extend this successful program for additional years.

The total amount our school is receiving this year is £11,106.98.00

This funding is ring-fenced and therefore can only be spent on provision for PE and sport in schools. We will be held accountable for how we have used the additional funding to support pupils progress and participation in PE and school sport. We are required to publish on-line information about how we spend the additional funding, including details about our sporting provision alongside curriculum details. This will ensure that parents/carers and others are made fully aware of the PE and sporting provision at St William of Perth Catholic Primary.

This is being used to:

- Deliver a range of high quality PE and sports activities
- Offer opportunities for staff to develop their subject knowledge
- Increase the number of pupils able to participate in after school sports activities
- Increase participation in active playtimes and lunchtimes
- Increase opportunities for pupils to participate in competitive sports events
- Educate pupils about the need for exercise, the effect it has on the body and to teach them about healthy eating
