8. Any other comments

Thank you for taking part. Please send this questionnaire back to the school.

- I think this is a great idea and needed by many
- An after-school club would be helpful too
- Yes, children should be permitted to bring their own breakfast also. Like the packed lunch system.

- This is something I have always felt necessary since my child started school. It would make such a difference for me to be able to drop the children at school personally, rather than relying on others.
- A breakfast club would help a lot of parents. People have wanted that option for a while.
- Is there any consideration for an afterschool club? This is something I would need more than breakfast.
- It would be great if after school club can be launched as well. Perhaps the school may consider to employ or hire staff or parents to do so with training provided.
- Any help right now is appreciated.
- Reduce traffic and parking with more staggered start times
- Not all on the road at the same time will allow more time to get to work and drop other family members to school / work.
- Most schools provide wraparound care. It would be great help to working parents and children would be happier in their own school environment (rather than city way for e.g.)
- Eases strain for parents who have to get to work early. They will know children are safe.
- A large majority of pupils have one or both parents working who rely on outside establishments to provide before and after school care. A school run club would provide continuity, be run to concede with term dates and would alleviate some of the traffic at opening times for the school. SWOP is one of the only local schools to not offer this service already.
- Not necessary for own circumstances but I imagine it could benefit many.
- This is long overdue!!!
- Thank you for considering this!
